

Our licensed massage therapists and body treatment specialists offer treatments that help our stressed-out, maxed-out bodies reduce stress, reduce blood pressure, stimulate circulation of body fluids, and increase our deteriorating range of motion. A pass for The Shimmer Spa is \$20 per guest per stay and includes usage of the spa facilities from 8am to 8pm, fresh robes and towels, and access to the amenity products located in the spa. If you are purchasing one of the spa treatments listed below, please note that the main room of the spa is always available to any guest who has purchased a spa pass. The treatment room of the spa is separated from the main area by a curtain. If you prefer to have the treatment in your room, please let us know. Spa treatments are performed one at a time.
